

SECRET SAXONVALE

Non-Disclosure Agreements
Media-fed misinformation
Secret auction
Corrupt Council??

Anyone officially briefed about Saxonvale is subject to a Non-Disclosure Agreement. Saxonvale was purchased by Mendip District Council in a secret auction for more than its market value. [REDACTED] Developers were appointed in secret, and details about the development are cloaked under a dark cloud of NDAs. [REDACTED]

Is the council trying to hide [REDACTED]
If Saxonvale belongs to the Council, it belongs to us, the people. The development should be transparent and open to public scrutiny. But it's being kept under lock and key. Why? [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] Is this legal?

Our top lawyers certainly doubt it.

Given all the NDAs that have been signed, the only way we can make sure this development is open to public scrutiny is to take this to the law courts and challenge the way it has been handled. [REDACTED]

What people want from Saxonvale*

- **A sustainable development**
- **Mixed-use: more jobs, more shops**
- **Provision for community groups**
- **Good quality parkland**
- **Architecture in-keeping with Frome**
- **Affordable housing**

What people don't want*

- **More cars and parking nightmares**
- **Featureless housing blocks**
- **Another expensive housing estate of tarmac and tyres**
- **Secrets and lies**

Acorn together with Nash Partnerships are housing developers & architects who were secretly appointed by the Council. Take a look at their portfolios of completed developments: a [REDACTED] the list of things Frome's people have said they don't want. They are good at cramming [REDACTED]

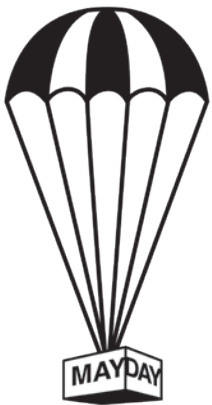

* according to the public consultation and meeting at the Assembly Rooms

We want what is best for our town. We've waited 20 years for something to happen and we don't want that wait to be in vain. We will fight for a development that delivers what people in Frome actually want, we will not let it turn into a blot of housing blocks, tarmac and cars.

We can show authorities that we will not be gagged, we will not roll over and accept mediocracy that benefits only a few, we will fight for what this town deserves.

**MAYDAY
SAXONVALE**

- 
- what is being covered up by Non-Disclosure Agreements?
 - was the site bought fairly at the right price?
 - is there corruption in the District Council?
 - what are they hiding?
 - why has the media been taken in by rose-tinted press releases from Acorn & Nash? Shouldn't they be digging deeper?

There's evidence that the law has been breached, and a full review by top specialist lawyers have confirmed there is a case to answer.
